What's new in each release

Workshare Professional 10

This is a 32-bit and 64-bit release that extends the comparison functionality to Excel and improves the integration in Outlook.

***Note:** It was not made publicly available (online) but was available to managed customers.*

- **Excel comparison**

Compare any two spreadsheets and see exactly what's changed. See the differences between individual sheets or your entire workbook.

You can launch Workshare Compare for Excel and perform comparisons from your desktop, from right-click options or from an email. Spreadsheets stored in your DMS or CRM, locally or on your network can be compared.
- **Simpler access to comparison from Outlook**

New buttons and dropdown options right where you want them.

Compare two email attachments or even a snippet of text from the body of your email.
- **Improved PDF comparison**

Behind the scenes, it's better, faster and stronger so comparison of PDF files is more accurate and reliable.
- **Environments changes**
 - Added support for Microsoft Office 365 (desktop)
 - Added support for eDOCS DM 16.3
 - Dropped support for Microsoft Office 2010
- **Workshare Configuration Manager**

The following parameter was added:

 - **Delete custom XML parts (Word)** (Protection > Interactive Protect and Protection > Remove Metadata)

The following parameters were removed because the automatic change notification (ACN) feature has been removed:

- **Attachment(s) Alert & Compare category name** (Comparison > Administration)
- **Enable Attachment(s) Alert & Compare** (Comparison > Administration)

Workshare Professional 10 (Revision 1)

This release fixed a few issues and was used for the marketing launch of Workshare Professional 10.

Workshare Professional 10 (Revision 2)

This release included certification for Microsoft Office 2019.

Workshare Professional 10.1

The Professional 10.1 release included the following:

- **Send multiple redlines**
When multiple redlines are open in Compare, they can all be attached to a single email.
- **Launch new comparison in open Compare**
When launching a new comparison with one already open in Workshare Compare, the new comparison will be displayed in a new tab in the same instance of Workshare Compare.
- **Support for iManage elastic cloud (multi-tenant cloud)**
Workshare Professional integrates with an iManage Work 10 multi-tenant server infrastructure. This is when Work 10 is hosted, maintained and owned entirely by iManage. This infrastructure is able to securely handle multiple customers.
- **Enhanced Excel chart comparisons**
The comparison of charts in Compare for Excel is even better.
- **Environments changes**
 - Added support for iManage Work 10 elastic cloud
- **Workshare Configuration Manager**
The following parameters were added:
 - **Launch new comparison in running instance** (Comparison > Administration)
 - **Default Server** (Integrations > iManage)
 - **Use Work 10 integration for all registered servers** (Work 10 only) (Integrations > iManage)

For some of the parameters in the Integrations > iManage category, “Legacy only” has been added to the name to clarify that the parameters apply to pre-Work 10 environments only.

Workshare Professional 10.1 (Revision 1)

The Professional 10.1 (Revision 1) release included the following:

- Added a Compare button to the Workshare ribbon in Microsoft Excel. This brings consistency across Microsoft Office applications with Workshare comparison now available from with Word, PowerPoint and Excel. so users can access compare from within Excel.
- Wider availability of Selective Compare - it is now available from the Workshare ribbon in Microsoft Excel and PowerPoint as well as Word and Outlook.
- Improved table comparison (enabled by default) that creates more readable results in the vast majority of cases.
- New rendering set option: **Use classic table comparison** (Comparison Options) so users can revert to the old method of table comparison.
- Access iManage versions from the recent files list when comparing.
- Workshare Configuration Manager: A new option - **Enable version dropdown in selection dialog (iManage only)** - in the Integrations > General category to enable the iManage versions functionality.

Workshare Professional 10.2

The Professional 10.2 release included the following:

- Added Save As PDF functionality into Compare for PowerPoint. This brings Compare for PowerPoint in line with our other comparison products. Users can save a comparison as a PDF file or a WCPF (Workshare Compare for PowerPoint) file in the DMS or CRM, locally or on their network.
- Kofax Power PDF: Workshare Professional 10.2 supports Power PDF and users can compare and clean PDF files created in Power PDF.
- Added support for OpenText eDOCS DM 16.5.
- Export comparison in Compare for Excel. The exported comparison is much easier to read and bug fixes have made the export process much smoother. There’s also a handy checkbox so the comparison immediately opens once the export is complete.
- Workshare Configuration Manager: The following parameters were added:
 - **Compare for PowerPoint – Default report layout** (Comparison > Administration)

Determines the default report layout when saving a PowerPoint comparison as a PDF. Also, when creating a comparison report after comparing presentations, this determines the default report layout selected. Options are: Full comparison report (default), Change summary only or Slide view only.

- **Compare for PowerPoint – Include unchanged slides** (Comparison > Administration)

If this option is selected, all slides are included when saving a PowerPoint comparison as a PDF. Also, when creating a comparison report after comparing presentations, the Include unchanged slides checkbox will be selected by default.

- **Compare for PowerPoint – Default save format** (Integrations > General)

Determines the default format for the comparison when saving a comparison or creating a comparison report in Workshare Compare for PowerPoint. Options are: WCFP (default) or PDF.

Workshare Professional 10.2 (Revision 1)

The Professional 10.2 (Revision 1) release included the following:

- Onboarding in Compare for Excel: The first time a user runs a comparison in Compare for Excel, they will be shown a useful onboarding wizard to explain how to view changes and navigate in the comparison.
- Comparison improvements in Compare for Excel.
- Assorted bug fixes.

Workshare Professional 10.3

The Professional 10.3 release included the following:

- Added rendering sets in Compare for Excel. Rendering sets affect what changes are detected as well as how changes are displayed. Compare for Excel includes two default rendering sets and users may create their own.
- Access to Workshare's comparison functionality from the Litera ribbon. If configured, the **Compare** and **Selective Compare** options (Compare group) are added to the Litera ribbon in Microsoft Office (Word, Excel, PowerPoint and Outlook). Users can then launch Workshare's comparison functionality from the Litera toolbar.
- Workshare Configuration Manager: To configure the above, the following parameter was added:

Add the Workshare Compare group to the Litera Desktop ribbon in Microsoft Office (General > User Interface)

Workshare Professional 10.4

The Professional 10.4 release includes the following:

- **Toolbar options on Litera tab**
All the Workshare options, previously located on a Workshare tab in Microsoft Office applications, can now be found on a Litera tab.
- **Kofax OmniPage for OCR**
Customers can select to use Kofax OmniPage to perform optical character recognition to change a scanned PDF from an image to text, and then convert it to RTF for comparison.
- **Improved detection of changes in images**
By default, Compare detects if an image has been inserted or deleted. Now, Compare can also detect changes to the image itself. This pixel-by-pixel comparison is enabled using an option in the Rendering Set Manager (Comparison Options).
- **Online functionality removed from Compare and Protect standalone installations**
The Connect module has been removed from the Protect and Compare standalone installs.
